Kipi System: Your Daily Workflow

From raw data to copy-paste actions in one command.

MORNING

One Command. Your Entire Day.

/q-morning

Run once. Everything loads. Your day is ready in seconds.

5 Sources

Calendar, Gmail, CRM, LinkedIn, Lead feeds

25 Agents

Process everything in parallel — simultaneously

1 Output

A single HTML file with your full day planned

DAILY HTML

Your Day, Ordered by Friction

Easiest actions first. Every section is pre-built and ready to execute.

1	**Quick Wins** 2–3 min each. Zero resistance.
2	**Open Loops** Overdue items surfaced automatically.
3	**Pipeline Follow-ups** Warm leads, next steps, timed nudges.
4	**LinkedIn + Posts** Comments, DMs, requests, visual assets.
5	**Emails + Meetings** Drafts written. Prep notes loaded.
6	**FYI Dashboard** Signals and intel — no action required.

DURING THE DAY

Copy. Paste. Check.

Every action is pre-written in your voice. No thinking required — just execution.

Inline Copy-Paste Text

DMs, comments, connection requests, emails — all written and ready. Click the link, paste, done.

Energy Tags

Quick Win · Deep Focus · People · Admin — batch similar work to protect your momentum.

Check It Off

Every completed action closes its loop. Progress is tracked without any manual logging.

AFTER A CALL

Debrief in Seconds

/q-debrief

Paste any conversation transcript. The system extracts everything that matters and routes it automatically.

What Resonated

Their exact words, captured verbatim.

Objections + Pushback

Logged to canonical files for future use.

Commitments Made

What you owe them — queued for follow-up.

Follow-Up Drafted

Tomorrow's action written automatically.

LOOP MANAGEMENT

Nothing Falls Through the Cracks

Every outbound action opens a tracked loop. The system manages urgency so you don't have to.

1. **Action Sent**
   Loop opens. Timer starts.
2. **Day 3**
   Follow-up drafted and queued.
3. **Day 7**
   Flagged as cooling — attention needed.
4. **Day 14**
   Forced decision: **Send, Park, or Kill.**
5. **Response Detected**
   Auto-closes on email, DM, or connection accept.

CANONICAL MEMORY

A System That Remembers Everything

Source-of-truth files that grow smarter with every conversation.

Talk Tracks

What to say — refined from real conversations.

Objections

Every pushback logged with proven responses.

Relationships

Every person — what they care about, what moves them.

Market Intel

Real buyer language from real conversations.

Decisions

Every choice made — with rationale preserved.

END OF DAY

Close the Loop in 10 Minutes

/q-wrap

A 10-minute health check that prepares the system — and you — for tomorrow.

01

Effort Log

What you actually did today — auto-captured.

02

Debrief Check

Any calls not yet debriefed are flagged.

03

Canonical Drift Detection

Stale or contradicted files surface for review.

04

Tomorrow Preview + Handoff

Your next session starts exactly where this one ends.
